

Welcome to Annelie Eriksson and AE Endurance Riding

Four hundredths after the winner

It is rare that there is a difference of more than one hundredth for those placed in the flatraces.

Mohaymin started 2100 meters at Bro Park on September 13 and showed that he wants to be among the top when he took care of the 3rd place, four hundredths after the winner.

And he took the chance again, at Bro Park on October 18, to show continued good form by taking a nice 2nd place in the Sheik Zayed bin Sultan al Nahyan Cup LPA.

The queen of the stable, Cleopathre, did not want to prove worse and won 3rd place in the Watha Stallion Sprint Cup, LPA. The race she won in 2019.

"There is always something to learn. Flatrace and enduranceriding have many similarities - it's about horses - but there are two different forms of training. And regardless of level, you can always learn new things."

ANNELIE ERIKSSON
SVENSK GALOPP, OKT 2020

Trainer course step 2

Annelie completed training course step 2, Directed by Svensk Galopp during September. This means that she now gets the opportunity to train 2 year old horses.

At present, Annelie has 5 Arabian as well a 2 year old thoroughbred in training.
